E.Q.

1. Why do people settle and live in a particular place?
2. How do people depend on and modify their physical environments?
3. How is your community similar and different to other communities?

Understandings:

- Where do people settle and live?
- Interactions between economic activities and geographic factors differ in communities.
- People living in communities depend on and modify their physical environment.
- Lifestyles in communities are influenced by environmental and geographical factors.
- People make decisions based on needs, wants, and resources in their community.

Standard:

Geography:

- 3SS2. Students describe the physical & human geography about people, places, and environments in a spatial context.
- 3SS2b: Examine how people have used the environment to meet their needs and wants and how this has changed over time.
- 3SS2c: Trace and describe the ways people use natural resources and the effect this has on the economy and lifestyle of the local region.
